LUMO COLLECTION

Illuminated panels for sauna & interiors

Light. Wood. In harmony.

Designed for sauna, wellness and interior spaces, LUMO brings together Finnish heat-treated aspen and indirect light in one seamlessly integrated panel system. The lighting groove is built directly into the panel – no separate housings or recesses required.

Designed by Minna Haapakoski for Pieksäwood. Made in Finland.

“
I wanted to bring the timeless beauty of traditional wooden cladding into the present, combined with the softness of indirect light.

MINNA HAAPAKOSKI
Designer, LUMO Collection

LUMO Base · LUMO In · LUMO Out

Three profiles. Two shades. Designed to combine.

Beautifully simple.

LUMO Base
25 x 31 mm
Slatted panel.

LUMO In
35 x 31 mm
Indirect light toward the groove side.

LUMO Out
35 x 31 mm
