

Pieksäwood

Authentic Finnish Sauna Wood

PREMIUM PANELS & BENCH BOARDS SINCE 1948

Pieksäwood is a Finnish family-owned company specialising in premium panels and bench boards for saunas, spas and high-end interiors.

Our strength lies in Finnish design, modern manufacturing, reliable deliveries and control over the entire production process – making us a trusted long-term partner for distributors, builders and sauna professionals worldwide.

Authentic Finnish aspen – available only from us.

Pieksäwood — MATERIALS

We use responsibly produced aspen and alder — much of it Finnish aspen from our own mill — with or without heat-treatment. You can also get radiata pine from us.

Our heat treatment is entirely chemical-free, using only hot air and steam to enhance the wood's durability, stability and warm natural tone — ideal for sauna interiors.

Aspen

Natural

Light color and resin-free surface create a sense of space. Perfect for premium saunas.

Heat-Treated

Rich brown tone and higher durability — brings a warm, luxurious feel to the sauna.

Sávu - Darker Heat-Treated

Sávu Collection: darker heat treatment creates deep smoky brown for elegant, modern spas.

Black Alder

Natural

Reddish hue and smooth texture bring natural warmth and coziness.

Heat-Treated

Heat treatment gives alder a deeper, richer brown tone while enhancing its natural warmth.

Sávu - Darker Heat-Treated

Sávu Collection: deep dark brown for bold, modern wellness spaces.

Roots Aspen

Natural

Heat-Treated

Roots panels — 100% Authentic Finnish aspen.
Roots celebrates the beauty of real wood — knots, textures and all. Available in natural and heat-treated.

Radiata Pine

Heat-Treated

Warm golden brown wood with distinct grain. Excellent stability — ideal for benches and walls.

FROM STANDARDS TO DESIGN — SIDE BY SIDE

From timeless sauna classics to distinctive design profiles, Pieksäwood offers a versatile range of panels and bench boards for saunas, spas and interiors.

Choose from our standard profiles, explore our design collections – or combine them to create your own look.

Standard panels

Our range includes the most widely used sauna and interior panel profiles in several widths, wood species and finishes.

STP · STS · FINGER

Design panels

Add rhythm, depth and character with Pieksäwood design profiles – from subtle grooves to integrated lighting.

KARE · GROOVE · LUMO · SOLA

Bench Boards & Elements

Bench boards in a wide range of dimensions, including narrow profiles and extra-wide laminated boards, complemented by ready-made bench elements in several wood species and finishes.

28 × 42 · 28 × 140 · 40 × 215 · KANTO bench element

MAKING MORE FROM EVERY TREE

For us, responsible manufacturing also means making the most of the raw material.

We source PEFC-certified wood from Finland and the Baltic states.
At our own aspen sawmill, we utilise different dimensions and grades across our product range. Smaller pieces and side streams become new products – from finger-jointed panels and bench components to our Roots Collection.

Less waste. More value from every tree.

FINGER-JOINTED PANEL · ROOTS PANELS

Pieksäwood

PROVEN IN FINLAND — GROWING GLOBALLY

“

Finland is the home of sauna. For generations, Pieksäwood has built its expertise around premium wood products for sauna interiors.

Today, we combine Finnish design, authentic Finnish aspen and modern manufacturing to create distinctive products for sauna and wellness professionals worldwide.

With our own sawmill, thermal treatment and moulding, we ensure consistent quality and reliable deliveries – while remaining flexible and easy to work with.

We know sauna wood. Let’s build together.
